

KEYWORD INDEX

- arrowleaf clover 91
- BNI 97
- body condition 161
- body condition score 211
- botanical composition 199
- brassica 129, 161
- canopy cover 121
- cattle 61
- core collection 27
- crop lifting 61
- cultivar 91
- Dactylis glomerata* 149
- environment 171
- farm profit 183
- farm systems 183
- Farmax 183
- farming enterprise 171
- feed supply 171
- fertiliser and lime decisions 45
- Festuca arundinacea* 149
- fluxmeter 35
- fodder beet 161
- fodder crops 211
- forage crop 129
- fragipan 103
- FVI 17
- genetic diversity 27
- gestation 211
- grazing management 91, 111
- grazing strategy 83
- high- and hill-country farmers 45
- high country 183
- hill country 111
- irrigation 103
- lamb survival 211
- leaching 35
- lime 183
- live weight 161
- Lolium* 27
- Lolium perenne* 17, 149
- low soil fertility 171
- lysimeter 35
- material flow 53
- milk solids 73
- minerals 73
- nitrate 35
- nitrate leaching 61
- nitrogen 35
- nitrogen intake 73
- nutrient 129
- over-sowing 199
- pasture 103, 161
- pasture cover 191
- pasture establishment 149
- pasture management 191
- perennial ryegrass 139
- plant breeding 17
- Plantago lanceolata* 97
- plastic 53
- profit 171
- recycling 53
- regulatory environment 45
- reproduction 73
- resource use efficiency 53
- revegetation 83
- rhizosphere 97
- runoff 103
- ryegrass cultivar 149
- seed set 91
- soil N 61
- summer fallow 111
- sustainability 45
- systems modelling 171
- Trifolium subterraneum* 121
- vegetative persistence 139
- waste management 53
- water balance 103
- weed 83
- winter feed 129
- winter forage crop grazing 61
- wintering 73
- yield 17, 91
