

CONTENTS

Introduction	6
Chapter 1 Why Renew Pasture?	8
Pasture performance over time	8
When to renew a pasture	9
Rate of renewal	9
Estimating the benefit of renewal	10
Chapter 2 Choosing a Pasture Mix-10 Essential Questions	11
What are the seasonal temperatures?	11
How much moisture is available?	12
How long is the pasture expected to last?	12
What stock type?	13
• Pasture for dairy cows	13
• Pastures for sheep and beef	13
• Pastures for deer	14
• Pastures for horses	14
When is feed most required?	14
What is the soil fertility?	14
Are there pest or disease concerns?	15
When will the pasture be sown?	15
What is the paddock history?	15
Farm history-successes and failures?	16
Chapter 3 Pasture Renewal Techniques	17
The role of crops	17
Full cultivation	17
Spray drilling	18
Seedbed preparation	18
Sowing	19
Soil fertility	19
Undersowing	20
Oversowing	21
Chapter 4 Buying Seed	22
Certified seed	22
Seed treatment	22
P & G Certificates-what to look for	23
Seed weight and sowing rate of pasture species	24

Chapter 5 Grasses	25
Feed Quality	25
Perennial ryegrass	25
Short rotation ryegrass	32
Italian and annual ryegrass	33
Cocksfoot	35
Tall fescue	37
Meadow fescue	39
Festulolium	40
Brome grasses	40
• Prairie grass	41
• Grazing brome	42
• Pasture brome	42
• Upland brome	42
• Smooth brome	42
Timothy	43
Phalaris	43
Yorkshire fog	43
Chapter 6 Legumes	45
White clover	45
Red clover	49
Lucerne	51
Subterranean clover	53
Strawberry clover	56
Lotus	56
Birdsfoot trefoil	57
Caucasian clover	58
Sulla	59
Persian clover	59
Balansa clover	59
Gland clover	60
Arrowleaf clover	60
Chapter 7 Grazing Herbs	61
Chicory	61
Plantain	64
Chapter 8 Endophyte in Ryegrass and Fescue	66
Perennial ryegrass and its endophyte	68

Short and long rotation ryegrass and endophyte	74
Italian ryegrass and endophyte	75
Tall fescue and its endophyte	75
Meadow fescue and its endophytes	77
Chapter 9 Forage Brassicas and Fodder Beet	78
Kale	78
Swedes	81
Rape	82
Leafy turnips	83
Bulb turnips	84
Radish	86
Brassica management for animal performance	86
Fertiliser and trace element management	90
Weed control in brassica crops	92
Pest and disease management	93
Fodder beet	97
Chapter 10 Forage Cereals	100
Oats	102
Triticale	102
Ryecorn	103
Barley	103
Chapter 11 Pasture Persistence	104
General factors	104
Grazing management	106
Insect damage and diseases	110
Plant breeding	111
Chapter 12 Environmental Considerations	113
Rooting depth	113
Grazing period	114
Diet	115
Economics	116
Nutrient budgets	117
Chapter 13 Breeders and Marketers	119
Appendix 1 Forage Value Index	120
References	122
